## OMAHA IN THE HORSE SHOW

Local Entries Make a Remarkably Fine Showing for the Ring.

M'CORD STABLE LEADS THE PROCESSION

from This One Owner and Many Others with Two and Three Each to Be Exhibited.

Omaha horse owners have not been so backward in entering their horses for the horse show as they were last year and there will be plenty of local owners to make this feature one of great interest. Local entries are subject to post entry and some owners have been a little slow on this account, but already enough have been entered to fill each of the classes for which good prizes were offered by the association.

One of the finest stables in Omaha is that of W. H. McCord, who has one of the most complete and most thoroughly equipped homes for the horse in the west. Long before horse shows were thought of in Omaha Mr. McCord made it a point to attend all the eastern shows which his time would permit, and it is from the ideas gained from these trips to the east that he has equipped one of the finest stables to be found anywhere. At present Mr. McCord has seven show horses, all thoroughbreds show or each evening and the three matinet and of quality sufficient to be shown in any exhibitions during the coming week, is: of the arenas through the east. Mr. McCord, except for ponies for Miss Marjorle, has almost exclusively borses suited for the heavy harness class, which will be entered at the Omaha show

in the gig and park classes. Not only is Mr. McCord an owner and lover of fine horses, but he is one of the most expert whips who ever entered a ring. His equipages are all in keeping with his horses, all modern and up-to-date, and no one has a finer set of vehicles and harness.

In his own words, he says: 'T consulted one physician after another and each one seemed to understand my case, but, all the same, they each failed to bring about the return of my former digestion, appetite and views. For two years I went form.

WIN POINT AGAINST SCALPERS tion from Colorado State Courts.

In a suit recently brought in the district court of Pueblo county, Colorado, the allied railroads sought for an injunction to pre vent the scalpers handling special contract tickets. The case was heard by Judge N Walter Dixon, who granted the order re quested. In his oral opinion Judge Dixon oriefly summed up the points and the au-It has been said by counsel for the defendants that the effect of this injunction would be to break up the business of ticket brokers. So far as these brokers carry on a legitimate business it cannot be affected by this injunction at all. So far as they carry on business in these special contract tickets it ought to be broken up. It is an illegitimate and fraudulent business. It is a fraud upon the railroad companies and it is a fraud upon the traveling public. If the sailroad companies had the opportunity of exercising their rights without any hindrance, without any linerference from third persons in regard to these special contract tickets, the traveling public would not be subjected to the annoyance to which they are now subjected in order that they may travel upon them, and the probabilities are that to the benefit of the public generally these tickets would be issued much more frequently than they are now Issued and probably at better rates than they are flow thorities, closing his remarks as follows: requently than they are now issued and probably at better rates than they are flow

KRAUSES WILL APPEAL CASE Convicted Land Pencers Plan to Carry Action Higher on Writ of Error.

The Krause brothers, cattle men from Sheridan county, recently sentenced to pay a fine of \$1,300 and costs amounting about \$1,200 for illegal fencing of the public lands, have determined to carry the case on appeal to the United States circuit court of appeals on a writ of error. Application for the writ will be made early during the coming week. The basis of the alleged error will be the impeachment of the testimony of the Osborns, the introduction of the Sylvester killing case as prejudicing the jury against the defendants, Krause brothers, which resulted in the jury finding against them, and that the court erred in denying the motion for a new trial; that the offense was a statutory and not a criminal offense.
